

THE GLORIA BORGES WUNDERGLO FOUNDATION

Join the Private Facebook Support Group called: [WunderGlo Chat](#)

Email becky@wunderglofoundation.org to register

DESCRIPTION: WunderGlo Chat is a forum for those impacted by colorectal cancer and other bowel diseases. This is a secret group where you will be able to share with other caregivers and survivors. What makes this different from all the other support forums available? Occasionally doctors affiliated with The WunderGlo Foundation will address topics for discussion based on questions that we will pose to them directly from this group. Each individual's experiences are unique and may not apply to everyone, but it is intended that through this sharing we all gain more knowledge about what may help us along in our journeys and in doing so, forge friendships and a strong network of support.

MISSION STATEMENT: The WunderGlo Foundation will not rest until there is a cure for colon cancer. The Foundation strives to save lives and support cancer warriors everywhere by raising funds for colon cancer research, promoting awareness about prevention of and treatment for colon cancer, and encouraging healthy lifestyle choices. Through its efforts, The WunderGlo Foundation seeks to empower and inspire those fighting the disease and those finding ways to eradicate it.
